Our Story

MOSO Events is named after a Mother-and-Son team consisting of Julie and Kevin Ballentyne. Their passion for bringing people together to celebrate is in their genes along with their family approach with every client. When they found the Gin in 2018 it was love at first sight. The 70-year-old Cotton Gin holds decades of history, character and potential. Their vision came to light when renovations were completed and the first wedding was held in 2019. Julie and Kevin brought together their love for events to create a space for all to enjoy.
